

## REACH & CLP regulations - Attestation of conformance for Ugitech articles in stainless steel and alloy

Regulation 1907/2006/EC on the Registration, Evaluation, Authorisation and restriction of Chemicals (REACH), amended by Regulation 552/2009/EC, concerning the applicable restrictions listed in appendix XVII, came into force in the European Union on 1 June 2007.

All chemical substances used on the European market must be registered with the European Chemicals Agency (EChA).

Within the scope of REACH, UGITECH is considered as a downstream user of his suppliers and mainly provides articles in stainless steel and alloy.

However, UGITECH remains close to his suppliers to check the status of the substances according to REACH regulation. UGITECH also check the use done by his customers complies with the articles 10 & 37(2).

According to REACH-article 33, Safety Data Sheets as described in article 31(6) are not required for such products (articles). Nevertheless UGITECH is willing to provide thorough safety information to its customers.

To our knowledge, our products don't contain substances (SVHC) listed of the appendix XV of REACH, including the candidate list of substances of very high concern for authorisation updated on January 17. 2022 (see appendix below).

In addition, our products and packing material don't contain substances included in the actual candidate list submitted to an authorisation according to Art. 33 & 59 (1, 10) with a concentration > 0.1% weight by weight (w/w).

Furthermore, in accordance with Directive 94/62/EC art.11 and (EU) 2018/852 art.1 point 10 amending Directive 94/62/EC and the US Model Toxics in Packaging Legislation (ex. CONEG legislation), UGITECH product packaging complies with the current requirements in terms of heavy metal content. The sum of the concentration levels of lead, cadmium, mercury and hexavalent chromium present in the packaging or its components does not exceed 100 ppm.

For all due intents and purposes

Pierre Michel BONE  
REACH Manager

### APPENDIX

#### « Candidate list of SVHC for authorisation in the annex XV of REACH »

**None of the articles in stainless steel manufactured by Ugitech** contains more than 0.1% weight by weight total of any of the following substances below

[Candidate List of Substances of Very High Concern for authorization](#)

Number of substances on the Candidate List: **223 (last updated: 17. January 2022)**
